Ballistic Discharge Bags and Cubes

Our range of modular ballistic discharge bags and discharge cubes provide a safe environment for the loading and unloading of firearms, handguns, rifles, and shotguns which, on occasion, come into the possession of either police or law enforcement officers. Designed specifically for use in confined spaces and vehicles, our ballistic solutions are sure to prevent injury or damage should an inadvertent firearm discharge occur.

Key Features and Benefits

- Lightweight - 4kg.
- Compact - 420mm x 180mm x 180mm.
- Water resistant, fire retardant and antibacterial durable outer fabric cover.
- Ultra-High Molecular Weight Polyethylene ballistic materials which capture the projectile.
- Designed to minimise risk of fragmentation or spall causing injury or potential damage to the barrel of the weapon.
- Certified to NIJ Standard 0108.01.

Options

- NIJ3+ 7.62 and 5.56 Ballistic Discharge Cube in lightweight water resistant and fire-retardant bag.
- NIJ3a Ballistic Discharge Bag.
- NIJ3a Ballistic Discharge Bag with the NIJ3+ 7.62 x 39 Ballistic Discharge Cube.
- Bespoke solutions are available upon request.
